📞 (267) 225-4629   @ me@sarahp.studio   🔗 SarahP.studio (portfolio)   📍 Philadelphia/NYC

TECH STACK

ES6   React   Sass   HTML/CSS   Node.JS   Javascript

Rails   Middleman   Various CMS'   MySql   Ruby

TEAM EFFORTS

Alephx
Joined Alephx to help with their support clients and a large non-profit's site launch. I contributed as Frontend Developer and part-time Project Manager.

iSite
Joined a small team of project manager, account manager, and backend developer. Helped them reach a hard deadline with the Xepi site.

Wardenclyffe
Complemented a small team with an account manager and frontend developer. I did Frontend development and also Technical Project Management

EXPERIENCE

Front End Programmer

Shomeya/SarahP.Studio   📅 2008 - Ongoing
📍 Portland, Oregon/Philadelphia

Boutique web development agency I ran from the ground up. I was the Lead Front End Programmer the entire time.

- Transitioned from to React as my main programming tool.
- Juggled clients, devs, and the Open Source community's needs, while still writing my own quality code.
- Kept a small team of developers working in sync to build enterprise level sites, such as Hunter Boots US.
- Focused on logical interfaces and sustainable code.
- Trained and educated other developers on how to create code that lasts.
- My "The Client Calls at Midnight" presentation still gets mentions years later
- Wrote two visual guides on how to adapt Bootstrap into Drupal themes.
- What did you achieve in this role?

INTERESTS & CREATIVE WORK

Acid Love Music Video

#CatFanstheband

Visualist/Video producer Sarah P & Music @pamsaur (twitter)

📅 2018 - Ongoing   🔗 https://catfans.github.io

Livecoding is using code to produce a live art experience. CatFans is a chill band that performs for everything from Tech Conferences to Synth Experiences. It's such an amazing experience to code for all to see, and make art in the same moment.

STRENGTHS

Development is a team effort
Knowing where to bring in my skills on a project, and how best to support people in our shared goals.

11yrs of Development Experience
I started coding way back in 2007, and have gone through a myriad of tools and techniques since. This has given me a good intuition on what is worth pursuing, and where there might be pitfalls.

Presentations & Public speaking are second nature
Being a Communications major has its perks. I'm comfortable presenting high concepts in a friendly way, to any size crowd.

VOLUNTEER

Open Source Contributor

Drupal.org

📅 2008 - 2016

As part of Drupal's growth from a small community to several thousand. Community challenges always accompany growth, and I helped develop strategies to encourage mentorship and inclusivity. I also contributed to Drupal.org's frontend code base.

EDUCATION

B.A. in Communications and Theater/Film

Indiana Wesleyan University

📅 08/2000 - 12/2003
